## Summary

I have been engaged in web development for more than 5 years, working on a variety of projects. Presently, I am working as a freelance software developer and also pursuing personal projects to enhance my front-end skills. Additionally, I am actively seeking a full-time position that will allow me to further upskill and contribute my expertise to a dynamic team.

## Experience

### Software Engineer (Freelance)

Victorious Korean Language Learning Center

Feb 2023 - Present (6 months)

Create school portal web app with Next.js and Firebase.

### Wordpress Developer (Freelance)

College of Home Economics, UP Diliman
